# SUMMARY

**Event Name:** MOLDEX India 2024

**Event Type:** Exhibition & Conference

**Date:** 19 – 23 January 2024

**Venue:** Hall No.01, BIEC, Bengaluru, India

**Edition:** First

**Conference:** MOLDEX India Conference

**Conference Date:** 20 January 2024

**Frequency:** Biennial

**Organised by:** Messe Stuttgart India

The inaugural edition of MOLDEX India 2024 took place from January 19-23 in Bengaluru, serving as Messe Stuttgart's debut show in India and functioning as the satellite event of Moulding Expo. The event aimed to provide an engaging platform for the tool, pattern and mould-making industry to put forth their innovations, and cutting-edge technology out in the industry.

The first edition of MOLDEX India 2024 was organized in association with VDMA and supported by associations like PIA (Peenya Industries Association), AMSI (Additive Manufacturing Society of India), CIPET (Central Institute of Petrochemicals Engineering & Technology), AIAI (All India Association of Industries). The support from these associations provided a great pillar to the industry and created a synergistic platform for industry players.

# MOLDEX INDIA CONFERENCE

## THEME – Indian Moulding Industry – New Technology & Techniques for Global Industry

The MOLDEX INDIA conference convened to spotlight the transformative potential of the Indian Moulding Industry, focusing on new technology and techniques for global relevance. This one-day event delved into the industry's crucial role in shaping both Indian and global manufacturing landscapes, showcasing the latest advancements and innovative methodologies. The objective was to dissect India's moulding industry's pivotal influence on the global market, paving the way for future growth and competitiveness.

# EXHIBITOR ANALYSIS

## Exhibitor Characterization:

### Sectors Offering:

- Tool, Pattern and mould-making
- Supply Technologies for mould-making
- Casting Tools
- Die-Casting Tools
- Pattern making and prototyping
- Materials
- Organisations, Publishers and Associations

## Exhibitor Perception:

### Expertise of the Trade Visitors

### The Business success for Participation

## Manufacturing processes offered by Exhibitors

## Product / Service Sectors Categories offered by Exhibitors

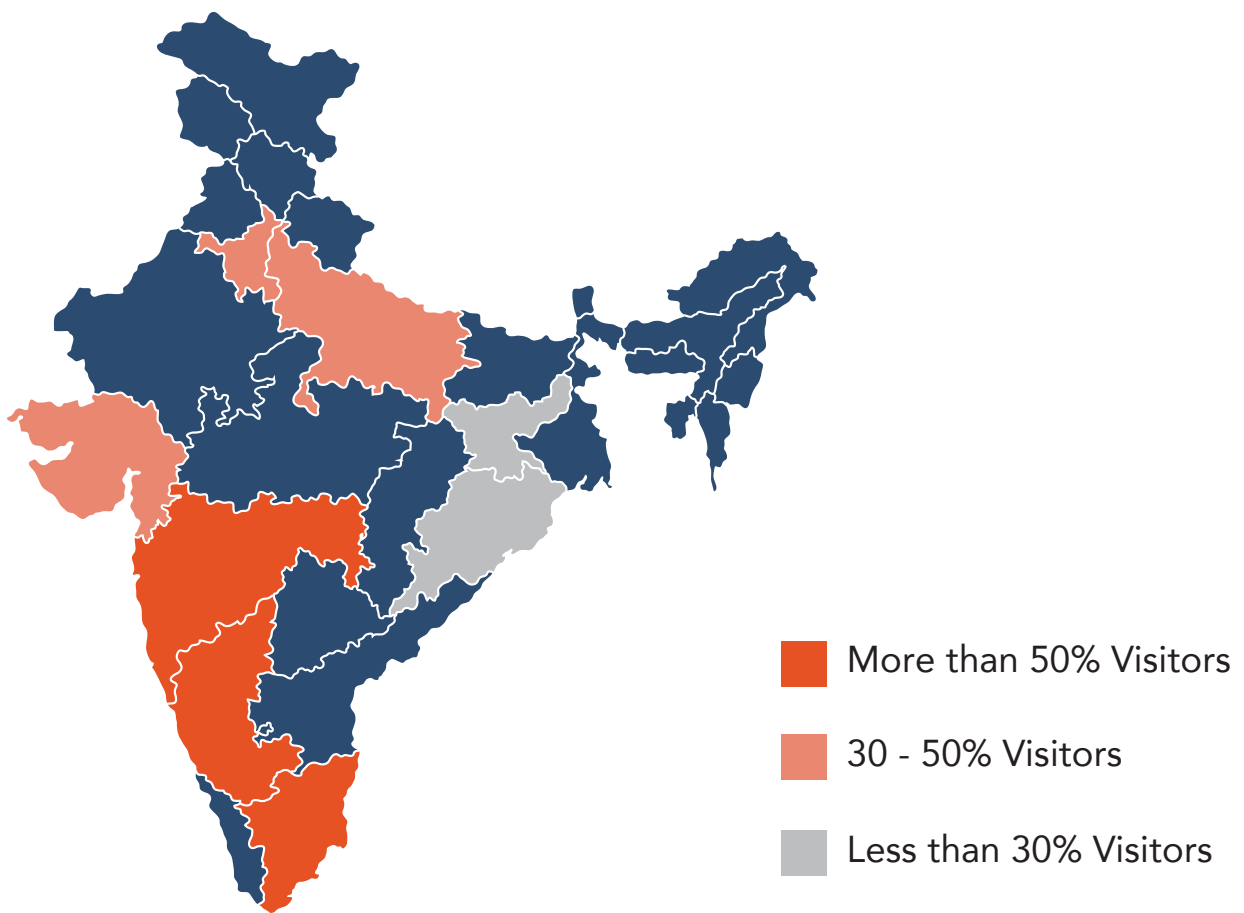

## Target Group of Exhibitors

# VISITOR ANALYSIS

MOLDEX India 2024, held from January 19 - 23 in Bengaluru, marked a significant gathering for the tool, pattern, and mould-making industry. Over five days, the event welcomed 4756 Visitors, facilitating fruitful business engagements for both exhibitors and attendees.

## OVERALL VISITOR FOOTFALL ACROSS THE COUNTRY

# 4756

PEOPLE GRACED  
MOLDEX INDIA 2024

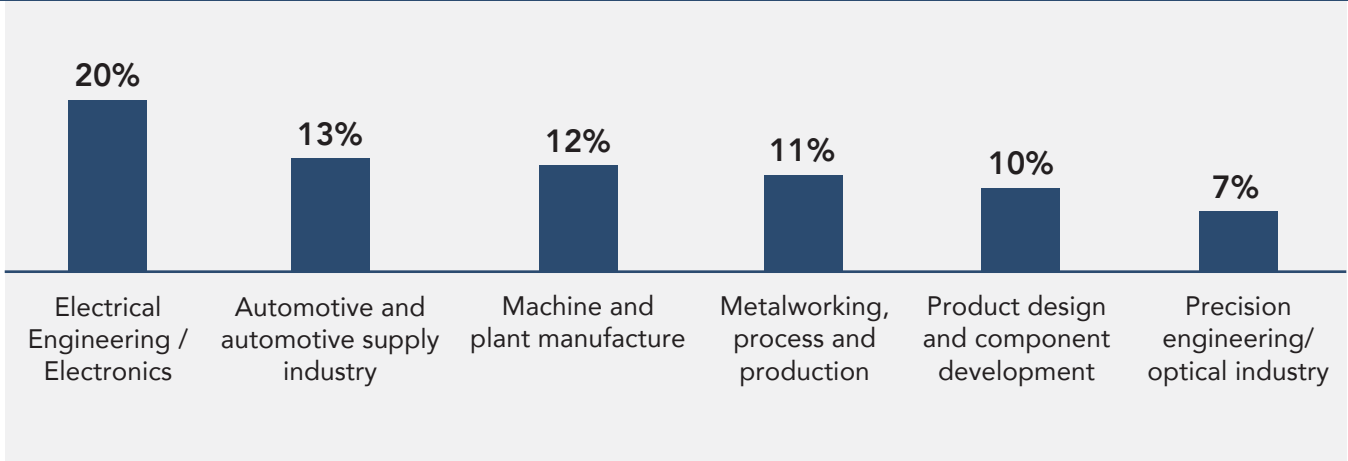

# VISITOR CHARACTERIZATION

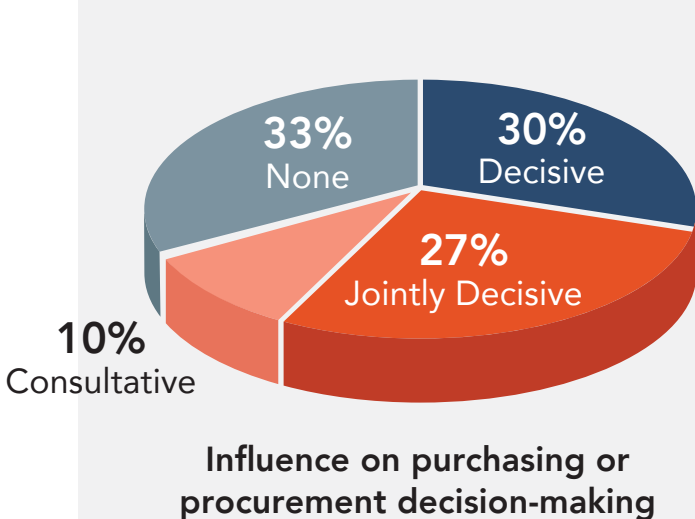

## Visitor Business's industry sector:

- Electrical Engineering/Electronics
- Automotive and automotive supply industry
- Machine and plant manufacture
- Metal working, processing, and production
- Product design and component development
- Precision engineering/optical industry

## Relevant Business Sectors

## Influencing Factor

# KEY HIGHLIGHTS

## Industry Focus:

MOLDEX India 2024 primarily targeted professionals and businesses operating within the tool, pattern, and mould-making sectors. The event provided a comprehensive platform to showcase innovative technologies, products, and services within these domains.

## Co-location Advantage:

Being co-located with Fastnex and IMTEX forming 2024 proved to be advantageous, as it enhanced networking opportunities and expanded the scope of engagement for participants. The combined events attracted a diverse audience from related sectors, fostering cross-industry collaborations and knowledge exchange.

## Business Opportunities:

Exhibitors and visitors alike benefitted from the event, with many reporting successful business interactions, lead generation, and deal closures. The exhibition served as a conducive environment for forging partnerships, exploring market trends, and scouting potential suppliers or clients.

## Visitor Turnout:

The exhibition witnessed a robust turnout, with a total of 4756 visitors in attendance over the five-day period. This significant footfall underscored the event's relevance and attractiveness within the industry, indicating high levels of interest and engagement among professionals.

## Technology Display:

MOLDEX India 2024 showcased the latest technological advancements, including innovations in tooling, patterning, and mould-making processes. Exhibitors presented cutting-edge solutions, machinery, and materials, reflecting the industry's ongoing evolution towards efficiency, precision, and sustainability.

## Knowledge Sharing:

In addition to the exhibition component, MOLDEX India 2024 featured seminars, workshops, and panel discussions addressing key challenges, trends, and best practices within the industry. These knowledge-sharing sessions provided valuable insights and facilitated dialogue among industry stakeholders.

## Next Show Planning

## Assessment of the Show

General Assessment of  
MOLDEX INDIA 2024

# CONCLUSION

The success of MOLDEX India 2024 highlights its role as a premier platform for India's tool, pattern, and mould-making industry. With a strong turnout of 4756 visitors and diverse exhibitors, the event spurred innovation and business expansion. Rich conference content empowered delegates to enhance production operations. MOLDEX India also provided extensive networking opportunities, fostering brand awareness and growth potential. As the industry evolves, MOLDEX India remains committed to shaping its future trajectory and driving advancement.

As we prepare for the upcoming MOLDEX India 2026 trade fair, we are excited about the promising journey that lies ahead for the mould and die industry. Building upon the achievements and learning of MOLDEX India 2024, we anticipate a trajectory characterized by technological innovation, collaboration, and growth. By remaining proactive we look forward to scaling the event in terms of exhibitor participation, visitor footfall and more dynamic knowledge exchange over all topics related to the moulding industry.

We invite you to join us on this transformative journey towards excellence at MOLDEX India 2026, scheduled for January 2026. Take part in a vibrant platform that unites industry leaders, trailblazers, and stakeholders to explore fresh opportunities, exchange valuable insights, and set the course for progress. Make sure to mark your calendars and save the date for MOLDEX India 2026 - an unmissable event poised to drive the industry forward.
